

Glass Cleaners

#56111 RTU Glass Cleaner

56111 RTU Glass Cleaner is a ready-to-use, ammoniated cleaner formulated specifically for use in general purpose applications. It can be used to remove a wide range of soils and adhesives on aluminum, chrome, glass, plastics, rubber, steel, and vinyl. 56111 RTU Glass Cleaner contains no dipentene or terpene that can leave on odorous residue behind.

#78502 Ammonia Free Glass Cleaner

78502 Ammonia Free Glass Cleaner is a ready-to-use cleaner formulated specifically for use in vehicle cleaning. 78502 Ammonia Free Glass Cleaner can be used to remove a wide range of soils on glass, chrome, and rubber. Contains no flammable solvents, no carcinogens, no phosphates, no 2-butoxyethanol, no ammonia, and is non-DOT corrosive.

Cleaners / Degreasers

#0118 Neutral Floor Cleaner

0118 Neutral Floor Cleaner is a highly concentrated, neutral pH product formulated specifically for use in general purpose applications. 0118 Neutral Floor Cleaner can be used as a releasing agent.

#1255 Non-Acidic Tile Cleaner

1255 Non-Acidic Tile Cleaner is a highly concentrated, self-foaming, alkaline cleaner formulated specifically for use in general purpose applications. 1255 Non-Acidic Tile Cleaner can be used to remove a wide range of soils on stainless steel, walls, floors, piping, and other hard-to-reach areas, while generating a moderate foam for ease of rinsing.

#5357 Pine Cleaner

5357 Pine Cleaner is a highly concentrated, mildly alkaline, solvent cleaner formulated specifically for use in general purpose cleaning and degreasing. 5357 Pine Cleaner can be used to remove a wide range of soils on aluminum, alloys, chrome, and steel.

#5404 Caustic General Purpose Cleaner

5404 Caustic General Purpose Cleaner is a highly concentrated, alkaline cleaner formulated specifically for use as a heavy-duty degreaser. 5404 Caustic General Purpose Cleaner is scientifically formulated to remove road film, oils, and grease. Can be used to remove a wide range of soils on painted surfaces, iron, and steel, but is **NOT recommended for use on aluminum**. Conforms to USDA Guidelines - A-1.

#5586 Lemon General Purpose Cleaner

5586 Lemon General Purpose Cleaner is a highly concentrated, mildly alkaline cleaner formulated specifically for use in general purpose applications. 5586 Lemon General Purpose Cleaner can be used to remove a wide range of soils on stainless steel, walls, floors, piping, and other hard-to-reach areas.

#5968 Lavender General Purpose Cleaner

5968 Lavender General Purpose Cleaner is a highly concentrated, neutral general purpose cleaner formulated specifically for use as a foaming degreaser. 5968 Lavender General Purpose Cleaner is especially effective in applications such as a presoak and pressure washing.

#6483 Oven & Hood Cleaner

6483 Oven & Hood Cleaner is a highly concentrated, non-foaming, alkaline cleaner formulated specifically for use in applications having high mechanical energy, such as recirculating CIP cleaners and high-pressure spray systems, where no foam is needed. 6483 Oven & Hood Cleaner can be used to remove a wide range of soils on stainless steel food processing equipment but is **NOT recommended for use on aluminum or soft metals**. Conforms to USDA Guidelines - A-2.

#6574 Pot & Pan Cleaner

6574 Pot & Pan Cleaner is a highly concentrated, mildly alkaline cleaner formulated specifically for use as a foaming degreaser that is especially effective in applications such as presoak, dish washing, and pressure washing. 6574 Pot & Pan Cleaner can be used to remove a wide range of soils on aluminum, stainless steel, walls, floors, piping, and other hard-to-reach areas. Generates a moderate foam that clings to vertical surfaces and rinses easily. Conforms to USDA Guidelines - A-1.

#7276 Simply Green

7276 Simply Green is a highly concentrated, non-alkaline cleaner formulated specifically for use in general purpose applications. 7276 Simply Green can be used to remove a wide range of soils on aluminum, stainless steel, walls, floors, piping, and other hard-to-reach areas. Conforms to USDA Guidelines - A-1.

#7629 Acidic Bathroom Cleaner

7629 Acidic Bathroom Cleaner is a concentrated, blended acid cleaner formulated specifically for use in mineral, scale, and rust removal. 7629 Acidic Bathroom Cleaner can be used to remove a wide range of soils including mineral and scale deposits and detergent residue on stainless steel, ceramic tile, walls, floors, metal piping, and other hard-to-reach areas. When used on food processing equipment, a rinse with potable water is necessary.

#01203-DC Drain Cleaner

01203-DC Drain Cleaner is a highly concentrated, self-foaming, chlorinated, alkaline cleaner formulated specifically for use in applications such as foam cleaning of food processing equipment. 01203-DC Drain Cleaner generates a moderate to heavy foam that clings to vertical surfaces. This heavy foam also makes it an excellent drain cleaner by filling it with foam that contacts all surfaces effectively while cleaning the whole drain and not just where the liquid flows. This product can be used to remove a wide range of soils on stainless steel, walls, floor, piping, and other hard-to-reach areas. **NOT recommended for use on aluminum or soft metals.**

#32005 Neutral General Purpose Degreaser

32005 Neutral General Purpose Degreaser is a highly concentrated, non-alkaline cleaner formulated specifically for use in general purpose applications. 32005 Neutral General Purpose Degreaser can be used to remove a wide range of soils on aluminum, stainless steel, walls, floors, piping, and other hard-to-reach areas.

#58209 Tub, Tile & Bowl Cleaner

58209 Tub, Tile & Bowl Cleaner is a highly concentrated, self-foaming, acid-intensified cleaner formulated specifically for applications such as foam spraying of stainless steel, aluminum, and ceramic equipment. 58209 Tub, Tile & Bowl Cleaner can be used to remove a wide range of soils on walls, floors, piping, and other hard-to-reach areas, while generating a moderate foam that clings to vertical surfaces.

Soaps

#5352 Car Wash Soap

5352 Car Wash Soap is a highly concentrated, mildly alkaline cleaner formulated specifically for use in general purpose cleaning applications. It can be used to remove a wide range of soils on aluminum, steel, plastics, rubber, upholstery, and vinyl. 5352 Car Wash Soap can be used as a presoak spray or applied with soft mitts or brushes. It is safe and effective for use on all surfaces.

#9096 Wash & Wax Car Soap

9096 Wash & Wax Car Soap is a highly concentrated, alkaline cleaner formulated specifically for use in general purpose vehicle cleaning. 9096 Wash & Wax Car Soap can be used to remove a wide range of soils on aluminum, stainless steel, plastics, rubber, upholstery, and vinyl.

#15402 Thick Car Wash Soap

15402 Thick Car Wash Soap is a highly concentrated, neutral pH cleaner formulated specifically for use in general purpose vehicle cleaning. 15402 Thick Car Wash Soap can be used to remove a wide range of soils on aluminum, stainless steel, plastics, rubber, upholstery, and vinyl. Safe and effective for use on carpets and upholstery.

#20211 Lavender Dish Soap

20211 Lavender Dish Soap is a mildly alkaline cleaner formulated specifically for use in general purpose cleaning applications, while leaving a pleasant lavender smell. 20211 Lavender Dish Soap can be used to remove a wide range of soils on all hard surfaces, piping, and other hard-to-reach areas. Conforms to USDA Guidelines - A-1.

#20211 Lemon Dish Soap

20211 Lemon Dish Soap is a mildly alkaline cleaner formulated specifically for use in general purpose cleaning applications, while leaving a pleasant lemon smell. 20211 Lemon Dish Soap can be used to remove a wide range of soils on all hard surfaces, piping, and other hard-to-reach areas. Conforms to USDA Guidelines - A-1.

Deodorizers

#4548 Lemon Deodorizer

4548 Lemon Deodorizer is a ready-to-use deodorant formulated specifically to control malodors present in refuse containers, waste hauling vehicles, landfills, rendering plants, waste treatment facilities, and chemical plants where fugitive odors may be present. 4548 Lemon Deodorizer eliminates malodors from the air immediately and effectively while leaving a pleasant lemon fragrance behind.

#16338 RainFresh Odor Neutralizer

16338 RainFresh Odor Neutralizer is a ready-to-use deodorant formulated specifically to control malodors present in refuse containers, waste hauling vehicles, landfills, rendering plants, waste treatment facilities, and chemical plants where fugitive odors may be present. 16338 RainFresh Odor Neutralizer eliminates malodors from the air immediately and effectively while leaving a pleasant natural, fresh scent behind.

#93008 Floral Deodorizer

93008 Floral Deodorizer is a ready-to-use deodorant formulated specifically to control malodors present in refuse containers, waste hauling vehicles, landfills, rendering plants, waste treatment facilities, and chemical plants where fugitive odors may be present. 93008 Floral Deodorizer eliminates malodors from the air immediately and effectively while leaving a pleasant floral scent behind.

Specialty

#0994 Foaming Degreaser

0994 Foaming Degreaser is a self-foaming, alkaline cleaner formulated specifically for use in general purpose applications. 0994 Foaming Degreaser can be used to remove a wide range of soils on stainless steel, concrete, walls, floors, piping, and other hard-to-reach areas. This product generates a moderate foam that clings to vertical surfaces.

#1299 Concrete Acid Wash Cleaner

1299 Concrete Acid Wash Cleaner is a highly concentrated, self-foaming, acidic cleaner formulated specifically for applications such as foam spraying. 1299 Concrete Acid Wash Cleaner can be used to remove a wide range of soils on aluminum, stainless steel, concrete walls, floors, piping, and other hard-to-reach areas. This product generates a foam that clings to vertical surfaces. Conforms to USDA Guidelines - A-3.

#1313 Bleach De-Stainer 12.5%

1313 Bleach De-Stainer 12.5% is a highly concentrated, non-foaming, chlorinated, alkaline cleaner formulated specifically for use in applications such as recirculating CIP and high-pressure spray systems where no foam is desired. 1313 Bleach De-Stainer 12.5% can be used to remove a wide range of soils on aluminum, and stainless steel food processing equipment and whiten conveyor belts/rollers. Contains 12.5% Sodium Hypochlorite and is economical to use at all temperatures. Conforms to USDA Guidelines - A-1.

#2251 Concrete Alkaline Wash

2251 Concrete Alkaline Wash is a concentrated cleaner/degreaser formulated specifically for use in general purpose applications. 2251 Concrete Alkaline Wash can be used to remove a wide range of soils on stainless steel, walls, floors, piping, and other hard-to-reach areas. It is exceptionally effective in removing carbon build-up from floors. **NOT recommended for use on aluminum or other soft metals.** Conforms to USDA Guidelines - A-1.

#4074 Cold Locker Cleaner

4074 Cold Locker Cleaner is a ready-to-use, alkaline cleaner formulated specifically for use as a general purpose glass cleaner in sub-freezing temperature environments. 4074 Cold Locker Cleaner is a balanced blend of biodegradable solvents and freeze control agents that are exceptionally effective in removing oils, grease, and road film.

#4349 Acid De-Scaler

4349 Acid De-Scaler is a highly concentrated, nitric and phosphoric acid cleaner formulated specifically for use in mineral, scale, and rust removal. 4349 Acid De-Scaler can be used to remove a wide range of soils including mineral and scale deposits and detergent residue on stainless steel, walls, floors, piping, and other hard-to-reach areas. This product can be used on painted surfaces, aluminum, and chrome-plated steel and generates a moderate foam. Conforms to USDA Guidelines - A-3.

#8855 Floor Stripper

8855 Floor Stripper is a highly concentrated, alkaline cleaner formulated specifically for use in general purpose and floor treatment applications. 8855 Floor Stripper can be used to remove a wide range of soils on stainless steel, walls, floors, piping, and other hard-to-reach areas. **NOT recommended for use on aluminum or other soft metals.** Conforms to USA Guidelines - A-1.

#01203 Foaming Chlorinated Cleaner

01203 Foaming Chlorinated Cleaner is a highly concentrated, self-foaming, chlorinated, alkaline cleaner formulated specifically for use in applications such as foam cleaning of food processing equipment. 01203 Foaming Chlorinated Cleaner generates a moderate to heavy foam that clings to vertical surfaces. This product can be used to remove a wide range of soils on stainless steel, walls, floor, piping, and other hard-to-reach areas. **NOT recommended for use on aluminum or soft metals.**

#24121 Graffiti Remover

24121 Graffiti Remover is a highly concentrated, self-foaming, alkaline cleaner formulated specifically for use in applications such as cleaning of equipment, mopping of floors or other areas where an all-purpose cleaner is needed, and the removal of graffiti. 24121 Graffiti Remover generates a moderate foam that clings to vertical surfaces and can be used to remove a wide range of soils on stainless steel, walls, floors, piping, and other hard-to-reach areas.

#83221 Asphalt Parking Lot Cleaner

83221 Asphalt Parking Lot Cleaner is a concentrated, neutral cleaner formulated specifically for use as a foaming degreaser. 83221 Asphalt Parking Lot Cleaner is especially effective in applications such as presoak and pressure washing of asphalt and concrete. This product can be used to remove a wide range of soils on asphalt, concrete, aluminum, stainless steel, walls, floors, piping, and other hard-to-reach areas, while generating a moderate foam that clings to vertical surfaces and rinses easily.

SO - Strip-Off

Strip-Off contains powerful acrylic cross-linked emulsifying agents for quick removal of floor finishes.

SX - Shine X

Shine X is an acrylic floor finish comprised of tough acrylic resins that are super light in color and will not discolor. They possess outstanding powdering and black mark resistance. Balanced for durability and luster.

GB - Glow Bright

Glow Bright RTU cleans and shines wood, wood laminate floors, and furniture. It's ready-to-use solution is easy to use. Simply spray the surface to be cleaned and wipe clean with a micro fiber towel.

TT - Tidy Tile

Tidy Tile is a no-rinse floor cleaner for daily cleaning and degreasing of Quarry Tile, concrete, and other hard surface floors. Its unique blend of surfactants and enzyme producing bacteria penetrate into porous tiles and grout, leaving an extremely clean surface. In one easy step you can eliminate grease build-up that can result in slip and fall accidents.

Thank You for Choosing Pacific-O Products!
